

DATACARD® SP55 PLUS CARD PRINTER

A POWERFUL CHOICE FOR FAST, VERSATILE CARD PRINTING

Multiple technologies for high-impact cards

- **Smart cards/proximity cards.** Issue personalized contact or contactless smart cards for e-purse and access control programs.
- **Bar codes and magnetic stripes.** Choose the machine-readable technology that fits with your access control and other automated systems.
- **Photos, graphics, and signatures.** Create superb cards with brilliant color, lifelike photos and other crisp, sharp graphics.
- **One- or two-sided printing.** Print high-quality, single or full-color images across one or both sides of a card. Choose one-sided inline printing or optional two-sided inline printing.

The Datacard® SP55 Plus card printer combines the speed and power of professional-grade card printing with the overall versatility you need to deliver high-quality cards for corporate, education, loyalty, entertainment and other markets.

- **High productivity.** The SP55 Plus card printer produces up to 190 one-sided, full-color cards or 1,000 one-sided, single-color cards per hour. Optional extra-large card input and output hoppers help ensure continuous productivity. High speed meets high quality with true edge-to-edge printing and sharp, crisp images driven by our exclusive Advanced Image Technology™. The printer also features front card loading and unloading, so you can place it anywhere.
- **Versatile performance.** The SP55 Plus card printer offers smart card, proximity card, ISO magnetic stripe and bar code options that make it easy to create a wide range of cards on demand. It is ideal for issuing multi-technology photo IDs that provide secure access to facilities, networks and other privileges. This printer also can issue secure IDs in schools as well as loyalty cards and VIP cards for casinos.
- **Intelligent features.** An innovative printer driver provides all the information you need on screen, including message prompts, color image previews and online user help. The SP55 Plus card printer also offers a built-in LCD and optional Ethernet connectivity.
